

# Chocolate Cupcakes

Makes about 24 cupcakes

## Ingredients:

1 chocolate cake mix

½ cup water

1/3 cup vegetable oil

1 cup sour cream

4 eggs (use only whites if making a white cake)

1 small box chocolate instant pudding

## Instructions:

1. Preheat oven to 325 degrees. Line muffin tin with cupcake papers.
2. Combine all ingredients in a mixing bowl.
3. Mix on low speed for 30 seconds. Scrape sides of bowl with a spatula.
4. Continue mixing on medium speed for 2 minutes, scraping bowl as necessary.
5. Fill cupcake wrappers with about ¼ cup of batter each. Place in oven.
6. They take longer to bake than a normal mix. I usually begin by adding 8 minutes to the earliest recommended bake time listed on the cake mix box and then check on it from there. Continue to bake until a toothpick inserted in the center of the cake comes out clean.
7. Cool on cooling rack for 10 minutes. Remove from pans and allow to cool completely.
